Dear Sirs and Madams,

I am a radio hobbyist and I love to listen to programmes from all over the world. Therefore I am very glad that I am able to listen to your radiostation. Besides listening, I also "collect" radiostations from all countries. Let me explain – I ask a radiostation which I heard to send me an official verification that I have indeed heard their programme. Many stations send a reply in form of a so-called QSL card on which all details of the reception confirmed are written. If you don't have such cards, you may use the card which I include. Please fill in the technical details, place a stamp and sign it. Then send it to me by mail. You will do me an enormous service! I will happily place your reply on its place in my collection, and the time may come that it helps me to gain a diploma from a radio-sporting association.

For control here are the details of my reception of your radiostation:

Day : ____ " ____ " 20__ г.

Time (Moscow time): с _____ до _____

Frequency: _____ кГц

Reception quality:

	Very good	good	mediocre	poor	very poor
<i>Signal intensity</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<i>Strength of disturbances</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<i>General quality</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Receiver: _____ for SW/MW/FM

Antenna : _____ m wire / _____ (active)

Programme details:

I will be very happy to find your letter in my mailbox. If possible, do also send some information about your station. Thanks a lot for your help!

Best wishes,
